

Online Search and Selection: Benefits for the Publisher

Our services can provide benefits throughout your company - saving time and money; facilitating the efficient sharing of book information and providing flexible access through multiple site/user licensing arrangements. This is an essential tool for Editorial, Sales, Marketing and Inventory Management.

Research new titles:

- Check up-to-date bibliographic data for competitors' titles - up to 12 months in advance of publication
- Utilise 'List Manager' features to share information and create lists
- Check if competitors' out-of-copyright editions are still in print
- Verify pricing
- Identify relevant publisher and/or distributor and verify their contact details

Global service:

- BookData Online's service is global (Australian, New Zealand and South African titles as well as UK, Europe and US), plus we gather data from more than 70 countries.

Professional search tool:

- BookData Online allows searching by publisher and imprint, detailed classification, publication date, readership, full words in text/title and much more
- Updated daily from our unique database of accurate, timely book information
- Email alert system to notify you when titles matching your criteria have been added to the database

Easy to use:

- BookData Online's search form can be customised to search by your chosen criteria
- Search history saves up to 50 searches, allowing you to save time by re-running previous searches
- Tailored access levels allow you to use the service on a single site or in multiple locations/with multiple users
- Access levels can be set for different levels of users

New title alert:

- Set up to alert you to new titles added to the database weekly, monthly etc by title, author, subject or genre

Special price available for publishers subscribing to BookData's Enhanced Service
