

## BookData Online

The definitive search, selection, ordering and sales ranking service

BookData Online is a professional bibliographic search tool used by booksellers, publishers and libraries worldwide and provides a unique source of timely, accurate and comprehensive information for books and other published media including digital publications. This, coupled with Order Tracking, Real Time Supplier Data, Ordering and BookScan sales ranking, provides an unequalled tool for book buyers.

There is a choice of UK & Ireland or International coverage.

**UK & Ireland:** Over 6 million English-language titles published or distributed in the UK, Ireland and Europe.

**International:** Over 11 million English-language titles published or distributed in the UK, Ireland, Europe, US, Australia, New Zealand and South Africa as well as data collected from a further 70 countries.

We present our records in a concise manner – each record carries all territorial and pricing information for each market under one unique ISBN.

### Records contain:

- Price and availability (P&A)
- Descriptions
- Tables of contents
- Wholesaler stock identified: UK, US (Baker & Taylor and Ingram)
- Publisher and distributor details
- Jacket/cover images
- Out-of-print titles.

### Search features include:

- Search using Quick Find, Advanced Search, Supplier Search and Bulk Search
- Create and store lists which can then be emailed, downloaded or printed in various formats

- Personalise your account, search forms and how you view your results
- Set up New Title alerts for your favourite search criteria
- Use Search History to retrace your last 50 searches
- Sort by BookScan chart position across search results and BIC codes
- Receive an indicator of weekly bestsellers, which can be applied to any set of results
- Order electronically from 60,000 publishers/distributors
- Track your TeleOrders and look up your order history for the last 6 months
- Real time supplier data from participating distributors
- Receive order acknowledgments from 21,000 suppliers.

Booksellers can take advantage of this service via the Internet or our Web Service. The BookData Web Service allows easy integration of data into your in-house system. The service can be delivered in the following formats: ONIX, XML, CSV or MARC.

A flexible solution to meet your business needs.
